EDUCATION

National University of Singapore (NUS)
Bachelor of Computing in Information Systems

Aug 2023 - Present

- Expected Date Of Graduation: May 2027

INTERNSHIP & WORK EXPERIENCE

Urban Sharing, Full Stack Developer

Jul 2025 - Present

- Migrated legacy front-end building blocks to a modern, reusable UI architecture, preserving business logic while improving maintainability and developer velocity.
- Designed and extended Micromobility-as-a-Service (MaaS) API endpoints, collaborating with internal teams and external city clients to ship reliable, well-documented features.
- Transitioned micro-services migrations to a new Kubernetes cluster, validating deployments and inter-service communication in a distributed production environment.
- Led rebuild of public rider web platform from a large, ageing codebase, defining a new system architecture while maintaining functional parity with existing back-end services.

Solace, Junior Support Engineer

May 2024 - Aug 2024

- Gained in-depth knowledge of event-driven system architecture and role of messaging brokers.
- Handled customer support tickets alongside a Senior Project Manager leveraging JIRA, aiding a total of more than 10 customers.
- Constructed 2 Web Portal and 1 Application Programming Interface (API) within 2 months using React and FlutterFlow to demonstrate broker data and real-time messaging capabilities.

Metropolitan Wireless International, Software Trainee

Jun 2023 - Aug 2023

- Contributed to an ALTS (Automated Location Tracking Service) web application; interacted with 1 Senior Project Manager to gather requirements for front-end development tasks.
- Spearheaded documentation and revamp of a Schedule Engine web application employing the Spring Boot framework and Quartz library, automating clean up processes and report generations.

PROJECTS

COVID-19 Online Pre-assessment tool

Nov 2020 - Nov 2020

- Assisted > 5000 by developing a web application using HTML, CSS, and Javascript to help affected parties file a Notification for Relief under the COVID-19 (Temporary Measures) Act.
- Awarded the Outstanding Court Volunteer Award (Student Category).

TECHNICAL SKILLS

- Programming languages : Java, Javascript, Typescript, C#, SQL
- Frameworks & Libraries : React, Next.JS, NestJS, Docker, Kubernetes
- Design : Canva, Figma
